

PICU Update Information

New programs:

- [BA in Arts, Entertainment, and Media Business](#) (a collaboration between Heller Business and CCPA that may have broad appeal/wide application of skills)
- [BA in Interdisciplinary Theatre Studies](#)
- [BA in Music](#)

All offered for the first time in Fall 2023. The latter two programs do not require auditions, and are not as intensely performance-centric as traditional programs at CCPA. Thus, they will have wider appeal to students who have interests in double-majoring. A student who is interested in studying Psychology, Sciences, or something different who also acted in high school, or played in school band, or similar may find these good pathways for continuing to develop in these areas while also attaining a degree in another area of interest.
